For those who believe that most of this unrest is due to poverty there is a queer morsel of evidence in the offer of an established firm to "give highest possible prices for old false teeth." Since most old false teeth must be the gruesome relics of death, it needs the pinch of terrible poverty to make the scant gold in such souvenirs a matter of barter. Life that demands the saving of old false teeth is admirably calculated to raise a generation of vegetarians who cannot chew, and agnostics submerged in squalor until they see no ray of light.
